Independent Auditor's Report

Board of Directors
Town of Chatham
Chatham, Louisiana

I have audited the accompanying general purpose financial statements of the Town of Chatham, Louisiana, as of and for the year ended June 30, 2001, as listed in the table of contents. These general purpose financial statements are the responsibility of the Town of Chatham's management. My responsibility is to express an opinion on these general purpose financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. These standards require that I plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general purpose financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the general-purpose financial statements referred to above present fairly, in all material respects, the financial position of the Town of Chatham, Louisiana, as of June 30, 2001, and the results of its operations and the cash flow of its proprietary fund types and nonspendable trust fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, I have also issued my report dated December 18, 2000, on my consideration of the Town of Chatham's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of my audit.

My audit was performed for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The supplemental statements and schedules listed in the table of contents are presented for the purpose of additional analysis and are not a required part of the general purpose financial statements of the Town of Chalmette. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in my opinion, is fairly stated, in all material respects, in relation to the general purpose financial statements taken as a whole.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation

The Town of Clarks was incorporated under the provision of the Louisiana Act and operates under a Mayor-Board of Aldermen form of government. The Town provides the following services to its 640 (approx) residents: public safety (police); highways and streets; gas, water, sewer, and sanitation facilities through the utility fund; culture/recreation; and general administrative services.

The accounting and reporting policies of the municipality conform to generally accepted accounting principles as applicable to governments. Such accounting and reporting procedures also conform to the requirements of Louisiana Revised Statutes 24:517 and to the industry audit guide, *Audit of State and Local Governmental Units*.

The accompanying financial statements of the Town of Clarks have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

B. Reporting Entity

As the municipal governing authority, for reporting purposes, the Town of Clarks, Louisiana is considered a separate financial reporting entity. The financial reporting entity consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board (GASB) Statement No. 14 established criteria for determining which component units should be considered part of the Town of Clarks, Louisiana for the financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. These criteria include:

1. Appointing a voting majority of an organization's governing body.
 - A. The ability of the municipality to impose its will on that organization and/or
 - B. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the municipality.
2. Organizations for which the municipality does not appoint a voting majority but are financially dependent on the municipality.
3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

No component units are included in this report, since there are none.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

C. Fund Accounting

The Town of Chatham uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. On the other hand, an account group is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net reportable available financial resources.

Funds of the Town of Chatham are classified into two categories: governmental and proprietary. Each category, in turn, is divided into separate fund types. The fund classifications and a description of each existing fund type follow:

Governmental Funds

Governmental funds account for all or most of the Town of Chatham's general activities, including the collection and disbursement of specific or legally mandated revenues, the acquisition or construction of general fund assets, and the servicing of general long-term debt. Governmental funds include:

General Fund - the general operating fund of the Town of Chatham and accounts for all financial resources, except those required to be accounted for in other funds.

Proprietary Funds

Proprietary funds account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Proprietary funds differ from governmental funds in that their focus is on income measurement, which, together with the maintenance of equity, is an important financial indicator. Proprietary funds include:

Enterprise Fund - accounts for operations (a) that are financed and operated in a manner similar to a private business enterprise where the intent of the governing body is that costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user fees; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

D. Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present revenues and decreases in net current assets. The modified accrual basis of accounting is used by all governmental funds and agency funds. The governmental funds use the following practices in recording revenues and expenditures. Major revenue sources susceptible to accrual include: sales and

Town of Chatham
Chatham, Louisiana
Notes To The Financial Statements
June 30, 2004

use tax, property taxes, franchise fees, special assessments, intergovernmental revenues and investment income more specifically.

1. Revenues

- A. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied by the Town in September or October and are actually billed on October 1, and are mailed to the taxpayers in November. Billed taxes become delinquent on January 1 of the following year. Revenues from all valuer's taxes are budgeted in the year billed.

The Town bills and collects its own property taxes using the assessed value determined by the tax assessor of Jackson Parish.

The year ended June 30, 2003, taxes of \$1.3 mills were levied on property with assessed valuations totaling 720,448 and were collected as follows:

General corporate purposes	\$1.3 mills
----------------------------	-------------

Property tax revenues are recognized when they become available. Available includes those property tax receivables cleared to be collected within sixty days after year end. Delinquent taxes are considered fully collectible and therefore an allowance for uncollectible taxes is not provided.

Fines, bond forfeitures, and fees are recognized when collected by the Town. Interest income is recorded when it is credited to accounts by the Bank.

- B. Sales Taxes are also received.

2. Expenditures

Salaries are recorded as expenditures when earned by employees.

Purchases of various operating supplies, etc. are recorded as expenditures when the related fund liability is incurred.

Principal and interest on general long - term debt and installment purchase payments are recognized when due.

3. Other Financing Sources (Uses)

Transfers between funds that are not expected to be repaid (and any other financing source/use) are accounted for as other financing sources (uses).

Proprietary Fund Types

Proprietary funds are the economic resource management flows. The accounting objectives are determination of net income, financial position, and cash flows. All assets and liabilities associated with a proprietary fund's activities are included on its balance sheet. Proprietary fund equity is segregated into contributed capital and retained earnings.

Town of Clathum
Clathum, Louisiana
Notes To The Financial Statements
June 30, 2008

Accrual Basis of Accounting

The accrual basis of accounting is used in proprietary fund types. The accrual basis of accounting recognizes revenues when earned. Expenses are recorded when incurred.

B. Budgets

The Town of Clathum (Mayor and Council) uses the following budget practices:

- (1) Prior to June 30, the town clerk submits to the Mayor and Council Members a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them for the upcoming year. The budget is submitted in summary form. In addition, more detailed line item budgets are included for administrative control. The level of control for the detailed budgets is at the department head/function level.
- (2) Public hearings are conducted to obtain taxpayer comment.
- (3) During the month of July the budget is legally enacted through passage of an ordinance.
- (4) Formal budgetary integration is employed as a management control device during the year for the General Fund and Capital Projects Fund, (where applicable).
- (5) Budgets for the General and Capital Projects Fund, are adopted on the GAAP basis.
- (6) Appropriations lapse at the end of each fiscal year.
- (7) The Mayor and Council Members authorize supplemental appropriations during the year. Supplemental appropriations were made during the fiscal year.

C. Encumbrances

Encumbrance accounting is not used.

D. Cash and Cash Equivalents

Cash includes amounts in demand deposits, interest-bearing demand deposits, and money market accounts. Cash equivalents include amounts in time deposits and time investments with original maturities of 90 days or less. Under state law, the Town of Clathum may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts, or time deposits with state banks organized under Louisiana law or any other state of the United States, or under the laws of the United States and national banks having their principal offices in Louisiana.

Under state law, the Town of Clathum may invest in United States bonds, treasury notes, or certificates. These are classified as investments if their original maturities exceed 90 days; however, if the original maturities are 90 days or less, they are classified as cash equivalents. Investments are stated at cost.

II. Restricted Assets

Restricted assets are comprised of cash and investments of \$243,081 as June 30, 2001 in the Enterprise Fund that have been set aside in special accounts to meet the provisions of the bond agreements and capital equipment acquisitions.

3. Fixed Assets

Fixed Assets of governmental funds are recorded as expenditures at the time purchased or constructed, and the related assets are capitalized (reported) in the general fixed assets account group. Public domain or infrastructures are not capitalized. All fixed assets are valued at historical cost. Construction cost interest is immaterial and is not capitalized.

Fixed assets used in the proprietary fund operations are included on the balance sheet of the funds net of accumulated depreciation. Depreciation of all exhaustible fixed assets used by proprietary fund operations is charged as an expense against operations. No depreciation has been provided for general fixed assets. Depreciation is computed using the straight-line method, and the following estimated useful lives:

Water Utility	
Wells	20 years
Storage tanks	40 years
Purification plant	30 years
Pipes and meters	40 years
Sewerage Utility	
Pump stations	40 years
Pipes	40 years
Apex and trucks	5 years
Other equipment	10 years

A. Long - Term Obligations

Long - term obligations expected to be financed from governmental funds are reported in the general long - term obligations account group. Expenditures for principal and interest payments for long - term obligations are recognized in the governmental funds when due.

B. Compensated Absences

Town employees are entitled to ten days of compensated absences. However, compensated absences do not vest or accumulate and are recorded as expenditures when they are paid.

Town of Chatham
Chatham, Louisiana
Notes To The Financial Statements
June 30, 2001

L. Fund Equity

Contributed Capital

Contributed capital is recorded in the Enterprise Fund for capital grants restricted for the acquisition or construction of capital assets. Contributed capital is not amortized based on the depreciation on that portion of the assets acquired or constructed from such resources.

Reserves

Reserves represent those portions of fund equity not appropriable for expenditures or legally segregated for a specific future use.

Designated Fund Balances

Designated fund balances represent tentative plans for future use of financial resources.

Fund Deficits

The proprietary fund has a deficit in unreserved retained earnings of \$73,493.25

M. Total Columns on Combined Statements

Total columns on the combined statements are captioned **Informational**. Only to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or changes in financial position in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

N. Interfund Transactions

Interfund transfers are accounted for as other financing resources, uses. The following transfers were made during 2001.

	To	From
General Fund	30,000.00	
Enterprise Fund		30,000.00
	<u>30,000.00</u>	<u>30,000.00</u>

NOTE 2 - LEVIED TAXES

Authorized millage .013 (6); Levied Millage .013

NOTE 3 - CASH AND CASH EQUIVALENTS

The following is a summary of cash and cash equivalents (check balances) as June 30, 2001.

Town of Claitors
 Claitors, Louisiana
 Notes To The Financial Statements
 June 30, 2001

At June 30, 2001, the Town had cash totaling 235,815 as follows:

	<u>2001</u>
Demand Deposits	64,077
Certificates	8,508
Restricted Assets (Cash)	163,230
Total	<u>235,815</u>

These deposits are rated as cost, which approximates market. Under state law, these deposits, or the matching bank balances, must be backed by federal deposit insurance or the pledge of securities owned by the bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the financial agent.

These securities are held in the name of the pledging, fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. Cash and cash equivalents (bank balances) at June 30, 2001 are secured as follows:

	<u>2001</u>
Bank Balances	235,815
Federal Deposit Insurance	100,000
Pledge Securities	200,000
Total Pledged	<u>535,815</u>

NOTE 4 - RECEIVABLES

The receivables at June 30, 2001 are as follows:

	<u>2001</u>		
General Fund		Enterprise Fund	Total
218.92		21,849.78	22,068.70

The allowance for bad debts is figured at .05 of receivables at year-end.

Town of Clarks
 Clarks, Louisiana

Town of Chatham
 Chatham, Louisiana
 Notes To The Financial Statements
 June 30, 2004

NOTE 7 - CHANGES IN GENERAL LONG - TERM OBLIGATIONS

The following is a summary of bond transactions for the year ended June 30, 2003

Principal Paid	11,000
Bonds payable at June 30, 2003	<u>44,000</u>

Revenue Bonds:

\$134,000 Water Refunding Bonds, Series 1994 due in annual installments of 11,000 to 18,000 through September 1, 2004; interest at 6.04% - Gasapine Fund

Total Water Revenue Refunding:

On 8-21-04, the Town of Chatham adopted a resolution to issue \$134,000 Water revenue refunding bonds, series 1994, with an interest rate of 6.04%. The proceeds were used to refund outstanding Water Revenue Bonds dated September 21, 1993. The refunded bonds were refunded pursuant to the order of the USA Farmers Home Administration, the registered owner of the refunded bonds.

Annual requirements to service long-term debt (the new debt) outstanding at June 30, 1996 follow:

**Report On Compliance And On Internal Control Over Financial
Reporting Based On An Audit Of Financial Statements Performed
In Accordance With Government Auditing Standards.**

Board of Directors
Town of Chatham
Chatham, Louisiana

I have audited the general purpose financial statements of Town of Chatham as of and for the year ended June 30, 2001, and have issued my report thereon dated December 18, 2001. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether Town of Chatham's general purpose financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with these provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The result of my tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered Town of Chatham's internal control over financial reporting in order to determine my auditing procedures for the purpose of expressing my opinion on the general purpose financial statements and not to provide assurance on the internal control over financial reporting. My consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the general purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. I noted no matters involving the internal control over financial reporting, and its operation that I consider to be material weaknesses.

This report is intended for the information of the management, and federal awarding agencies and pass-through entities. However, this report is a matter of public record and its distribution is not limited.

Schedule of Findings and Questioned Costs
For the Year Ended June 30, 2001

I have audited the financial statements of Town of Chalmette as of and for the year ended June 30, 2001, and have issued my report dated December 18, 2001. I conducted my audit in accordance with generally accepted auditing standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, (and the provisions of Circular A-133.) My audit of the financial statements as of June 30, 2001 resulted in an unqualified opinion (qualified, adverse, disclaimer).

Management Recommendations

To the Mayor and Council Members
Town of Challem
Challem, Louisiana

The prior year audit findings: None

During my audit, the following came to my attention:

- (1) The Town, because it is responsible, can not solve the problem of inadequate segregation of duties.
